

COMPSAFE – Compliant Secure Asset Folder

Audio/visual recording of activities such as technical surveys, critical operations, and key maintenance work is becoming the rule.

COMPSAFE by Media Perception standardises the recording process so that indisputable records of such events are produced and maintained.

A robust technology used by the MoD.

Audio/visual records of any operation made safe

Media Perception works closely with you to deliver your own audio/visual solution.

COMPSAFE has four configurable components:

- **COMPSAFE Input** – catalogues and inputs recordings close to an operation to suit you
- **COMPSAFE Store** – protects and manages recordings to meet your compliance needs
- **COMPSAFE Web** – allows you to access recordings exactly as you want
- **COMPSAFE Viewer** – manages the playout of your own compiled audio/visual presentations
